SUMMARY

iOS engineer with 4+ years at LINE building real-time voice and video calling features for 200M+ MAU, with a prior background in embedded systems.

EXPERIENCE

iOS Software Engineer (VoIP)

July 2022 – Present

LINE Plus Corporation, Seongnam-si, South Korea

Client-side features for real-time voice and video communication on LINE (200M+ MAU)

- Built and shipped iOS UI for real-time call features — Puri PhotoBooth, Watch Together screen sharing, LiveTalk OpenChat voice rooms, and live Speech-to-Text (STT) — with UIKit and SwiftUI
- Implemented system-level Picture-in-Picture using AVKit for seamless in-call video rendering
- Migrated the pre-call Self Check device-testing feature to TCA and added unit tests
- Automated code formatting, linting, and color updates via GitHub Actions
- Partnered with PMs and designers across multiple releases (Jira/Confluence)

Embedded Software Engineer

June 2021 – July 2022

GE Appliances (Edison Program), Seongnam-si, South Korea

Embedded software for smart home appliances, working directly with U.S.-based teams in English

- Developed embedded software for washers and refrigerators in C/C++ and Lua using TDD
- Redesigned rotation-control logic for up to 3x faster tower rotation, no hardware changes

Embedded Software Engineer

August 2020 – March 2021

Wayties Inc., Seongnam-si, South Korea

Message stack for V2X (vehicle-to-vehicle) communication systems

- Developed V2X codec modules (IEEE 1609.2/1609.3, SAE J2735) in C++ with ASN.1
- Led a web-based traffic-signal simulator (Node.js + C++ ROS2 parsers for SPaT/MAP)

PERSONAL PROJECTS

MAAL Daliza — Horse Racing Decision Support (Team Lead)

Dec 2022 – Dec 2023

- Led a 3-person team; built a Python pipeline (pandas, NumPy) and pytest backtesting on the Korea Racing Authority API, plus a Node.js web app for race-day recommendations

Factory Kim — Coupon Book Android App (Team Lead)

Oct 2022 – Mar 2023

- Published a personalized digital-coupon app on Google Play (Kotlin 1.6.10, Android SDK 31), 100+ downloads; led planning and architecture
